what to do next?

It's all pretty simple. We highly suggest reading through all of the PDF's on the Design Boutique page. There's tons of information about printing options, inks, envelope colors and more. It will help you narrow down some options and find the best fit for you.

Once it's time to get started, a designer will send you a form to submit your order information. You can also find the form under the "Order Form" button on the Design Boutique page. You will be asked to provide all order details along with payment information.

The first 3 proofs are complimentary, \$20 each thereafter. You can work with your designer and request as many changes as you like per proof. Your order is not printed until you give us the ok! If you are not happy and decide to cancel, there is a \$50.00 cancellation fee that we will charge to your card.
